## SALTA LITHIUM PROJECT ARGENTINA –ADDITIONAL TENURE

PepinNini Minerals is pleased to announce that a further three mining leases (Mina) have been granted by the Salta Province Mining Court on the Salta Lithium Project in the vicinity of Salinas Grandes covering 9,447ha. This increases granted tenure on the Lithium Project to 24,641ha or 246km<sup>2</sup>.

“this additional tenure adds to the viability of our Lithium Project and we have active exploration underway and planned for the next year” said Rebecca Holland-Kennedy, Managing Director, PepinNini. “The additional minas cover ground that is highly prospective for lithium brines and strategically located in the vicinity of active Lithium Producers”

Salinas Grandes Project

Note: Key Competitor project areas relative to PepinNini Minas  
Outlines of areas have been compiled from various public release presentations.

PepinNini acknowledges and wish to clearly advise investors that Lithium Brine Projects are a liquid resource and as such they are clearly NOT covered under the current JORC Code 2012 for Reporting of Exploration Results, Mineral Resources and Ore Reserves. The company will however endeavour to report project results at the same professional standard expected in the spirit of the code.
