It does not contain the same level of disclosure as an initial public offering prospectus and is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

Representations contained in this Prospectus are made taking into account that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters are publicly available information or may reasonably be expected to be known to investors and professional advisers whom prospective investors may consult.

### Forward-looking statements

This Prospectus contains forward-looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, the Directors and the Company's management.

The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this Prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.

These forward-looking statements are subject to various risk factors that could cause the Company's actual results to differ materially from the results expressed or anticipated in these statements. These risk factors are set out in Section 5.

### Overseas shareholders

The Offers do not, and are not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Shares these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Loyalty Options Offer is not being extended and Securities will not be issued to Shareholders with a registered address which is outside Australia or New Zealand.

For further information on overseas Shareholders please refer to Section 2.10.

### Continuous disclosure obligations

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Securities.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Please refer to Section 6.2 for further details.

### Target Market Determination

In accordance with the design and distribution obligations under the

Corporations Act, the Company has determined the target market for the offer of New Options under the Loyalty Options Offer. The Company and the Lead Manager will only distribute this Prospectus to those investors who fall within the target market determination (TMD) as set out on the Company's website ([www.powerminerals.com.au](http://www.powerminerals.com.au)). ### **Company Website**

No documents or other information available on the Company's website is incorporated into this Prospectus by reference.

### **Financial forecasts**

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a

reliable best estimate forecast or projection.

### **Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship**

The Company will apply to participate in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company.

Electronic sub-registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with statements (similar to a bank account statement) that set out the number of Securities issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Electronic sub-registers also mean ownership of securities can be transferred without having to rely upon paper documentation. Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

### **Photographs and Diagrams**

Photographs used in this Prospectus which do not have descriptions are for illustration only and should not be interpreted to mean that any person shown endorses the Prospectus or its contents or that the assets shown in them are owned by the Company. Diagrams used in this Prospectus are illustrative only and may not be drawn to scale.

### **Definitions and Time**

Unless the contrary intention appears or the context otherwise requires, words and phrases contained in this Prospectus have the same meaning and interpretation as given in the Corporations Act and capitalised terms have the meaning given in the Glossary in Section 8.

As announced on 26 March 2024 and 5 April 2024, the Company is undertaking a capital raising to raise up to approximately \$1,090,734 (before costs) comprising:

- (a) the issue of 5,228,936 Shares to unrelated institutional, sophisticated and professional investors (**Placement Participants**) at an issue price of \$0.14 per Share to raise \$732,051 (before costs) (**Placement**). Subject to Shareholder approval at an upcoming Shareholder meeting (the **General Meeting**), Placement Participants will also be issued one New Option for every two Shares subscribed for and issued under the Placement;
- (b) subject to Shareholder approval, the issue of 357,143 Shares at an issue price of \$0.14 per Share, together with 178,572 New Options (on the basis of one New Option for every two Shares subscribed for and issued) to Director, Mena Habib, to enable him to participate in the Placement (**Director Participation**). The Director Participation will enable the Company to raise an additional \$50,000 (before costs); and
- (c) a pro-rata underwritten non-renounceable loyalty options offer of one New Option for every three Shares held by Eligible Shareholders registered at the Record Date at \$0.01 per New Option to raise up to an additional \$308,683 (before costs).

As outlined in the timetable set out in Section 1.1, the Company will issue an aggregate of 5,228,936 Shares on 10 April 2024 (**Placement Shares**) to the Placement Participants pursuant to the Company's placement capacity under ASX Listing Rules 7.1 and 7.1A. Accordingly, the Placement Participants will be eligible to participate in the Loyalty Options Offer.

GBA Capital Pty Ltd (ACN 643 039 123) (CAR 001285020 of AFSL 544680) (**GBA Capital**) has been appointed as the underwriter of the Loyalty Options Offer and the lead manager of the Placement. The material terms of:

- (a) the underwriting agreement and the total fees payable to GBA Capital in respect of the Loyalty Options Offer are summarised in Section 6.4; and
- (b) the lead manager mandate (**Lead Manager Mandate**) and total fees payable to GBA Capital in respect of the Placement and the Director Participation are summarised below.

<b>Fees</b>	<p>The Company has agreed to:</p> <ul style="list-style-type: none"><li>(a) pay GBA Capital a capital raising fee of 6.0% of the total funds raised under the Placement and the Director Participation (excluding any funds raised from existing substantial Shareholder Summit Nanotech Corporation in respect of which a 2% fee will be payable); and</li><li>(b) subject to obtaining Shareholder approval, issue GBA Capital (or its nominee) 3,000,000 New Options (which are the subject of the Broker Offer under this Prospectus).</li></ul>
<b>Reimbursement of Expenses</b>	<p>The Company agrees to reimburse GBA Capital for all reasonable out-of-pocket expenses (including any applicable GST) incurred by GBA Capital in connection with the Capital Raising, including:</p> <ul style="list-style-type: none"><li>(a) legal fees of GBA Capital, up to a maximum of \$10,000 (excluding GST); and</li></ul>

## 1.4 Key Risk Factors

Prospective investors should be aware that subscribing for Securities involves a number of risks and an investment in the Company should be considered as highly speculative. The future performance of the Company and the value of the Securities may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are set out in Section 5.

The predominant risks relating to the Company and the Offers are summarised below:

Category of Risk	Risk
<b>Additional requirements for capital</b>	<p>The Company's capital requirements depend on numerous factors. The Company may require further financing in addition to amounts raised under the Capital Raising.</p> <p>The Company's capital requirements will include the obligation to repay any funds drawn down under the loan agreement entered into with Director Mena Habib and dated 24 January 2024 (as announced on 25 January 2024) (<b>Habib Facility</b>). As at the date of this Prospectus, \$500,000 has been drawn down under the Habib Facility, with a further \$500,000 available for drawn down. Any funds drawn down, together with interest payable at a rate of 5% per annum, must be repaid within</p>

Category of Risk	Risk
	<p>90 days after receipt of written notice demanding repayment, or such later date as agreed.</p> <p>Following completion of the Capital Raising, the Board believes the Company will have sufficient working capital to adequately meet the Company's short-term capital requirements.</p> <p>The Company notes that additional funds are expected to be received on completion of the divestment of the Santa Ines Project (as detailed below).</p> <p>The Company also provided a secured convertible loan of \$1.13 million to Ultra Lithium Inc in May 2023. The loan, together with accrued interest, is repayable on demand by the Company at any time by the issue of shares Lithium Inc. or in cash at any time after 30 June 2024 or in the event of a default.</p> <p>The Company is presently considering other fundraising initiatives to meet the medium-term working capital requirements of the Company and repayment of the Habib Facility. The Company is confident that it will be able to generate further funding as and when available.</p> <p>The Company may seek to raise further funds through equity or debt financing, joint ventures, production sharing arrangements or other means. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programmes. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.</p>
<b>Exploration and operating risks</b>	<p>The mineral exploration licences comprising the Company's projects are at various stages of exploration, and potential investors should understand that mineral exploration and development are high-risk undertakings. There can be no assurance that future exploration of these mineral exploration licences, or any mining concessions that may be acquired in the future, will result in the discovery of an economic resource. Even if an apparently viable resource is identified, there is no guarantee that the required permits, consents and access agreements will be granted or that it can be economically exploited. The future exploration activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns or adverse weather conditions, unanticipated operational and technical difficulties, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, industrial and environmental accidents, industrial disputes, unexpected shortages and increases in the costs of consumables, spare parts, plant, equipment and staff, changing government regulations and many other factors beyond the control of the Company. The success of the Company will also depend upon the Company being able to maintain title to the mineral exploration licences comprising the projects and obtaining all required mining concessions and other approvals for their contemplated activities at the projects. In the event that exploration programmes prove to be unsuccessful, this could lead to a diminution in the value of the projects, a reduction in the cash reserves of the Company and possible relinquishment of one or more of the projects.</p>
<b>Regulatory risk</b>	<p>Changes in government policy (such as in relation to taxation, environmental protection, competition and pricing regulation and the methodologies permitted to be used for water use and brine disposal) or statutory changes may affect the Company's business operations and its financial position. A change in government regime may significantly result in changes to fiscal, monetary, property rights and</p>

Category of Risk	Risk
	<p>other issues which may result in a material adverse impact on the Company's business and its operations.</p> <p>Companies in the mining industry may also be required to pay direct and indirect taxes, royalties, and other imposts in addition to normal company taxes. The Company currently has operations or interests in Australia and Argentina. Accordingly, its profitability may be affected by changes in government taxation and royalty policies or in the interpretation or application of such policies in each of these jurisdictions.</p> <p>The Company monitors changes in legislation, regulations, rules and procedures across the jurisdictions in which it operates.</p>
<b>Commodity prices</b>	<p>The price of lithium and other mineral commodities fluctuates due to variations in supply and demand, and global economic conditions. A decline in the price of lithium may have a material adverse effect on the economic potential of the Company's lithium resources.</p> <p>The Company incorporates price ranges in economic analyses to assess price exposures.</p>
<b>Market conditions</b>	<p>Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:</p> <ul style="list-style-type: none"> <li>(a) general economic outlook;</li> <li>(a) introduction of tax reform or other new legislation;</li> <li>(b) interest rates and inflation rates;</li> <li>(c) changes in investor sentiment toward particular market sectors;</li> <li>(d) the demand for, and supply of, capital; and</li> <li>(e) terrorism or other hostilities.</li> </ul> <p>The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.</p>

## 1.5 Directors' Interests in Securities

The relevant interest of each of the Directors in the Securities of the Company as at the date of this Prospectus, together with their respective Entitlement, is set out in the table below:

Director	Shares	Options	Performance Rights	Entitlement	
				New Options	\$
Stephen Ross	250,000	-	1,600,000	83,334	\$833
Mena Habib <sup>1</sup>	1,140,293	-	3,100,000	380,098	\$3,801
James Moses	125,000	-	920,000	41,667	\$417

### Notes:

- The Company will seek Shareholder approval at the General Meeting to issue 357,143 Shares and 178,572 New Options to Mena Habib at an issue price of \$0.14 per Share to enable Mr Habib to participate in the Placement on the same terms as unrelated professional, sophisticated and institutional investors.

The Board recommends all Shareholders take up their Entitlements. The Board advises that all Directors intend to take up their full Entitlements.

## 1.6 Details of Substantial Holders

Based on publicly available information as at the date of this Prospectus, those persons which (together with their associates) have a relevant interest in 5% or more of the Shares on issue are set out below:

Shareholder	Shares	%
Stephen Curtain, Trade Prestige & The Trustee For S & N Curtain Super Fund	6,118,857	7.00%
Fuyang Mingjin New Energy Development Co. Ltd	6,500,000	7.44%
Summit Nanotech Corporation	6,250,000	7.15%
Adam Carles Taylor, TC Drainage (WA) Pty Ltd & Forte Equipment Pty Ltd	4,372,264	5.00%

As the Options Offers involve the issue of New Options and the Cleansing Offer involves the issue of a nominal number of Shares, there will be no change to the substantial holders on completion of the Offers. However, there may be a change to the substantial holders as a result of the completion of the Placement and the Director Participation.

## 1.7 Underwriting

The Loyalty Options Offer is underwritten by GBA Capital. Refer to Section 6.4 for details of the terms of the underwriting.

GBA Capital has also been appointed as the lead manager of the Capital Raising. The terms of the lead manager appointment and total fees payable are set out in Section 1.2.

## 1.8 Effect on control

There will be no immediate change to any Shareholder's voting power as a result of the issue of the New Options. Where New Options are exercised into Shares, the voting power of the Shareholders who exercise the New Options will increase. The likelihood of New Options being exercised is dependent on the price of Shares from time to time until the New Options expire.

A substantial holder would be prevented from exercising the New Options if doing so would be in contravention of section 606 of the Corporations Act.

## 1.9 Potential dilution on non-participating Shareholders

No immediate dilution will occur as a result of the issue of New Options under this Prospectus. However subsequent exercise of any or all of the New Options will result in dilution. Assuming the Placement Shares and Director Participation Shares are issued and all New Options offered under the Options Offers are issued and exercised into Shares, Shareholders who do not participate in the Options Offers, are likely to be diluted by an aggregate of approximately 28.28% (as compared to their holdings and number of Shares on issue as at the Record Date).

For illustrative purposes, the table below shows how the exercise of New Options may impact the holdings of Shareholders:

Holder	Holding as at Record date	% at Record Date	Entitlements under the Loyalty Options Offer	Holdings if Entitlement not taken Up	% post Loyalty Options Offer
Shareholder 1	10,000,000	10.76%	3,333,334	10,000,000	7.71%
Shareholder 2	5,000,000	5.38%	1,666,667	5,000,000	3.86%
Shareholder 3	1,500,000	1.61%	500,000	1,500,000	1.16%
Shareholder 4	400,000	0.43%	133,334	400,000	0.31%
Shareholder 5	50,000	0.05%	16,667	50,000	0.04%

**Notes:**

1. This table assumes that:
  - (a) there is an aggregate of 92,962,180 Shares on issue (comprising 87,376,101 Shares on issue as at the date of this Prospectus and 5,586,079 Shares which will be issued under the Placement and Director Participation);
  - (b) all New Options offered under this Prospectus are exercised; and
  - (c) no other Shares are issued (including Shares issued on exercise of Options or Performance Rights).
2. The dilutionary effect shown in the table is the maximum percentage on the assumption that all Entitlements are accepted or placed under the Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting Shortfall was not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

## 2. DETAILS OF THE OFFERS

### 2.1 The Loyalty Options Offer

The Loyalty Options Offer is being made as a pro-rata non-renounceable entitlement offer of one New Option for every three Shares held by Shareholders registered at the Record Date at an issue price of \$0.01 per New Option. Fractional entitlements will be rounded up to the nearest whole number.

Based on the capital structure of the Company as at the date of this Prospectus, (and assuming no Shares are issued prior to the Record Date other than the issue of the Placement Shares) approximately 30,868,346 New Options may be issued under the Loyalty Options Offer to raise up to \$308,683.

As at the date of this Prospectus the Company has 9,025,000 Options on issue all of which may be exercised prior to the Record Date in order to participate in the Loyalty Options Offer. Please refer to Section 4.1 for information on the exercise price and expiry date of the Options on issue.

The New Options will be exercisable at \$0.30 on or before the date that is five years from the date of the initial issue of New Options to Eligible Shareholders under the Loyalty Options Offer and otherwise on the terms set out in Section 4.1.

The Shares issued upon the future exercise of the New Options will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 4.2 for further information regarding the rights and liabilities attaching to the Shares.

The purpose of the Loyalty Options Offer and the intended use of funds raised are set out in Section 3.

## 2.3 Payment options

### (a) By BPAY®

For payment by BPAY®, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (i) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application monies; and
- (iii) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Securities (if any) under the Shortfall Offer, to the extent of the excess.

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. **It is your responsibility to ensure that funds submitted through BPAY® are received by 5:00pm (ACST) on the Closing Date. The Company shall not be responsible for any delay in the receipt of the BPAY® payment.**

#### **Guidance where you have more than one CRN (Shareholding of Shares)**

If you have more than one shareholding of Shares and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those Shareholdings only use the CRN specific to that Shareholding as set out in the applicable Entitlement and Acceptance Form. **Do not use the same CRN for more than one of your Shareholdings.** This can result in your Application monies being applied to your Entitlement in respect of only one of your Shareholdings (with the result that any Application in respect of your remaining Shareholdings will not be valid).

#### **(b) By Electronic Funds Transfer (overseas applicants)**

For payment by Electronic Funds Transfer (**EFT**) for overseas Eligible Shareholders, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via EFT if you are the holder of an account that supports EFT transactions to an Australian bank account. Please note that should you choose to pay by EFT:

- (i) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application monies; and
- (iii) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Securities (if any) under the Shortfall Offer, to the extent of the excess.

#### **(c) By Cheque**

Payment by cheque or cash will not be accepted.

## **2.4 Implications of an acceptance**

Returning a completed Entitlement and Acceptance Form or paying any Application monies by BPAY® or EFT will be taken to constitute a representation by you that:

- (a) you have received a copy of this Prospectus and the accompanying Entitlement and Acceptance Form, and read them both in their entirety;
- (b) you acknowledge that once the Entitlement and Acceptance Form is returned, or a BPAY® or EFT payment instruction is given in relation to any Application monies, the application may not be varied or withdrawn except as required by law.

## **2.5 Minimum subscription**

There is no minimum subscription.

## **2.6 Shortfall Offer**

Any Entitlement not taken up pursuant to the Loyalty Options Offer will form the Shortfall Offer (**Shortfall Securities**). The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for up to three months following the Closing Date. The issue price for each New Option to be issued under the Shortfall Offer shall be \$0.01 being the price at which New Options have been offered under the Loyalty Options Offer.

If you do not wish to take up any part of your Entitlement you are not required to take any action. That part of your Entitlement not taken up will form part of the Shortfall Offer and potentially be allocated to other Eligible Shareholders or other third parties as part of the Shortfall Offer. The Shortfall Offer will only be available where there is a Shortfall between applications received from Eligible Shareholders and the number of New Options proposed to be issued under the Loyalty Options Offer.

Eligible Shareholders who wish to subscribe for Securities above their Entitlement are invited to apply for Shortfall Securities under the Shortfall Offer by completing the appropriate section on their Entitlement and Acceptance Form or by making payment for such Shortfall Securities in accordance with Sections 2.3.

Allocation of the Shortfall Securities will be at the discretion of the Board in conjunction with GBA Capital and will otherwise be subject to the terms of the Underwriting Agreement, details of which are set out in Section 6.4. If the Loyalty Options Offer is oversubscribed (by take up of Entitlements and applications for Shortfall Securities by Eligible Shareholders), scale back will be applied to applications under the Shortfall Offer on a pro-rata basis to the respective shareholdings of Eligible Shareholders. There is no guarantee that Eligible Shareholders will receive Securities applied for under the Shortfall Offer.

## **2.10 Overseas shareholders**

The Offers do not, and are not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Securities these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. ### 3. PURPOSE AND EFFECT OF THE OFFERS

#### 3.1 Purpose of the Loyalty Options Offer

The purpose of the Loyalty Options Offer is to raise up to \$308,683 before costs.

The funds raised from the Loyalty Options Offer are intended to be applied in accordance with the table set out below:

Proceeds of the Loyalty Options Offer	Full Subscription	
	\$	%
Lithium Project	\$150,000	48.59%
Musgrave Project	\$50,000	16.20%
Working Capital	\$47,076	15.25%
Expenses of the Offers <sup>1</sup>	\$61,607	19.96%
<b>Total</b>	<b>\$308,683</b>	<b>100.00%</b>

**Notes:**

1. Refer to Section 6.8 for further details relating to the estimated expenses of the Offers.

On completion of the Loyalty Options Offer, the Board believes the Company will have sufficient working capital to achieve its stated objectives. In the event the Loyalty Options Offer is not fully subscribed, operational objectives are likely to be modified, which may result in delay or substantial changes to the Company's future plans. In this event (and after accounting for associated costs of the Offers) it is likely that the Company will appropriately scale back funds available for working capital and the Lithium Project.

In addition, it should be noted that the Company's budgets and forecasts will be subject to modification on an ongoing basis depending on the results achieved from its business activities and operations.

The above table is a statement of current intentions as of the date of this Prospectus. As with any budget, intervening events (including exploration success or failure) and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way funds are applied on this basis.

#### 3.2 Purpose and effect of the Secondary Offers

##### Placement Options Offer and the Broker Offer

The Placement Options Offer and the Broker Offer are being made such that the relief provided under ASIC Corporations (Sale Offers That Do Not Need Disclosure) Instrument 2016/80 with respect to the on-sale provisions of section 707 of the Corporations Act is available.

Specifically, if the New Options are issued with disclosure under this Prospectus, then the Shares issued upon the exercise of any of the New Options can be on-sold within 12 months of their issue, without a disclosure document for the on-sale offer.

No funds will be raised under the Placement Options Offer or the Broker Offer (other than funds raised if the New Options are subsequently exercised) as the

New Options are being issued to the Placement Participants and Mena Habib on the basis of one New Option for every two Shares subscribed for and issued under the Placement and the Director Participation and to GBA Capital as a fee for acting as lead manager of the Capital Raising.

### Cleansing Offer

The purpose of the Cleansing Offer is to remove any trading restrictions that may have attached to Shares issued by the Company without disclosure under Chapter 6D of the Corporations Act prior to the closing date of the Cleansing Offer (including prior to the date of this Prospectus). In particular, the Cleansing Offer is intended to remove any on-sale restrictions that may affect the Placement Shares. Accordingly, the Company is seeking to raise only a nominal amount of \$140 under the Cleansing Offer as the purpose of the Cleansing Offer is not to raise capital.

All of the funds raised under the Cleansing Offer (if any) will be applied towards the expenses of the Capital Raising and the Secondary Offers. On that basis, there will be no surplus proceeds from the Cleansing Offer. Refer to Section 6.8 for further details relating to the estimated expenses of the Offers.

### **3.3 Effect of the Offers**

The principal effect of the Offers, assuming all Entitlements are accepted, and no Shares are issued including on exercise or conversion of other Securities on issue prior to the Record Date, will be to:

The New Options are exercisable at any time on or prior to the Expiry Date (**Exercise Period**).

(e) **Notice of Exercise**

The New Options may be exercised during the Exercise Period by notice in writing to the Company in the manner specified on the New Option certificate (**Notice of Exercise**) and payment of the Exercise Price for each New Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

(f) **Exercise Date**

A Notice of Exercise is only effective on and from the later of the date of receipt of the Notice of Exercise and the date of receipt of the payment of the Exercise Price for each New Option being exercised in cleared funds (**Exercise Date**).

(g) **Timing of issue of Shares on exercise**

Within 5 Business Days after the Exercise Date, the Company will:

- (i) issue the number of Shares required under these terms and conditions in respect of the number of New Options specified in the Notice of Exercise and for which cleared funds have been received by the Company;
- (ii) if required, give ASX a notice that complies with section 708A(5)(e) of the Corporations Act, or, if the Company is unable to issue such a notice, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors; and

- (iii) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the New Options.

If a notice delivered under paragraph (g)(ii) for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, the Company must, no later than 20 Business Days after becoming aware of such notice being ineffective, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors.

(h) **Shares issued on exercise**

Shares issued on exercise of the New Options rank equally with the then issued shares of the Company.

(i) **Reconstruction of capital**

If at any time the issued capital of the Company is reconstructed, all rights of an Optionholder are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reconstruction.

(j) **Participation in new issues**

There are no participation rights or entitlements inherent in the New Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the New Options without exercising the New Options.

(k) **Change in exercise price**

A New Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the New Option can be exercised.

(l) **Transferability**

The New Options are transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.

## **4.2 Rights and liabilities attaching to Shares**

The following is a summary of the more significant rights and liabilities attaching to the Shares being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) **General meetings**

General meetings of the Company may be called by the Board and held in the manner determined by the Board. Except as permitted by the Corporations Act and the Corporations Regulations 2001 (Cth) (**Corporations Regulations**), no other person may convene a general meeting of the Company.

(b) **Voting rights**

Subject to any rights or restrictions for the time being attached to any class or classes of shares:

- (i) on a show of hands, each shareholder present has one vote;
- (ii) where a shareholder has appointed 2 persons as proxies for that shareholder, neither proxy may vote on a show of hands;
- (iii) where a person is entitled to vote by proxy in more than one capacity, that person is entitled only to one vote on a show of hands;
- (iv) if the person appointed as proxy has 2 or more appointments that specify different ways to vote on a resolution, the proxy must not vote on a show of hands; and
- (v) on a poll, each shareholder present:
  - (A) has one vote for each fully paid share held; and
  - (B) has for each share which is not fully paid a fraction of a vote equivalent to the proportion which the amount paid up, but not credited as paid up, on that share bears to the total of the amounts paid and payable (excluding amounts credited) on that share.

Any corporation, being a shareholder and entitled to vote, may by resolution of its directors or other governing body or by an instrument of proxy authorise any person, though not a shareholder of the Company, or any person occupying a particular office from time to time, to act as its representative at meetings, and such representative is, in accordance with their authority and until their authority is revoked by the corporation which they represent, entitled to exercise the same powers on behalf of the corporation which they represent as that corporation could exercise if it were a natural person who was a shareholder.

(c) **Dividend rights**

The Board may from time to time determine that a dividend is payable to the shareholders. The dividend is (subject to the rights of, or any restrictions on, the holders of shares created or raised under any special arrangement as to dividend) payable on all shares pro rata to the total

amount for the time being paid, but not credited as paid, in respect of the shares as a proportion of the total of the amounts then paid and payable thereon, excluding amounts credited, and may be paid at a rate per annum in respect of a specified period provided that (for the purposes of this rule) no amount paid on a share in advance of calls is to be treated as paid on that share.

The Board may establish and maintain one or more dividend plans (including the establishment of rules) pursuant to which shareholders may elect with respect to some or all of their shares (subject to the rules of the relevant plan).

(d) **Winding-up**

If the Company is wound up, whether voluntarily or otherwise, the liquidator may divide among all or any of the contributories as the liquidator thinks fit in specie or in kind any part of the assets of the Company, and may vest any part of the assets of the Company in trustees upon any trusts for the benefit of all or any of the contributories as the liquidator thinks fit.

If thought expedient, any division may be otherwise than in accordance with the legal rights of the contributories and, in particular, any class may be given preferential or special rights or may be excluded altogether or in part, but in case any division otherwise than in accordance with the legal rights of the contributories is determined, any contributory who would be prejudiced by the division has a right to dissent and ancillary rights as if the determination were a special resolution passed pursuant to the Corporations Act and the Corporations Regulations, relating to the sale or transfer of the Company's assets by a liquidator in a voluntary winding up.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Securities as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

The rights attached to any class of shares (unless otherwise provided by the terms of issue of the shares of that class) may, whether or not the Company is being wound up, and subject to the ASX Listing Rules, be varied with the consent in writing of members with at least 75% of the votes in the class, or with the sanction of a special resolution passed at a separate meeting of the holders of the shares of that class.

The rights conferred upon the holders of the shares of any class issued with preferred or other rights are, unless otherwise expressly provided by the terms of issue of the shares of that class, deemed not to be varied by the creation or issue of further shares ranking equally with the first-mentioned shares.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

The risks factors set out in this Section 5, or other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Securities. This Section 5 is not intended to provide an exhaustive list of the risk factors to which the Company is exposed.

### 5.2 Company specific

Risk Category	Risk
<b>Additional requirements for capital</b>	<p>The Company's capital requirements depend on numerous factors. The Company may require further financing in addition to amounts raised under the Capital Raising.</p> <p>The Company's capital requirements will include the obligation to repay any funds drawn down under the loan agreement entered into with Director Mena Habib and dated 24 January 2024 (as announced on 25 January 2024) (<b>Habib Facility</b>). As at the date of this Prospectus, \$500,000 has been drawn down under the Habib Facility, with a further \$500,000 available for drawn down. Any funds drawn down, together with interest payable at a rate of 5% per annum, must be repaid within 90 days after receipt of written notice demanding repayment, or such later date as agreed.</p> <p>Following completion of the Capital Raising, the Board believes the Company will have sufficient working capital to adequately meet the Company's short-term capital requirements.</p> <p>The Company notes that additional funds are expected to be received on completion of the divestment of the Santa Ines Project (as detailed below).</p> <p>The Company also provided a secured convertible loan of \$1.13 million to Ultra Lithium Inc in May 2023. The loan, together</p>

Risk Category	Risk
	<p>with accrued interest, is repayable on demand by the Company at any time by the issue of shares Lithium Inc. or in cash at any time after 30 June 2024 or in the event of a default.</p> <p>The Company is presently considering other fundraising initiatives to meet the medium-term working capital requirements of the Company and repayment of the Habib Facility. The Company is confident that it will be able to generate further funding as and when available.</p> <p>The Company may seek to raise further funds through equity or debt financing, joint ventures, production sharing arrangements or other means. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programmes. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.</p>
<b>Going Concern</b>	<p>The Company's financial report for the half year ended 31 December 2023 (<b>Financial Report</b>) includes a note on the financial condition of the Company and the possible existence of a material uncertainty about the Company's ability to continue as a going concern.</p> <p>The Financial Report notes that for the period ended 31 December 2023 the Group recorded a loss after tax of \$2,487,949 and had net cash outflows from operating activities of \$1,599,650, while cash and cash equivalents amounted to \$1,992,087. The Group's ability to finance planned exploration and ongoing capital projects is reliant on third party funding sources. The uncertainty of obtaining said financing indicates the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern and realise its assets and discharge its liabilities in the normal course of business.</p> <p>The Directors believe that given the quality of the Group's assets, that the Group can, if required, fund future activities through a combination of existing cash and future capital raises to meet its obligations as and when they fall due. Additionally, the Directors believe that upon the successful completion of the Capital Raising, the Company will have sufficient funds to adequately meet the Company's current exploration commitments and short-term working capital requirements. However, it is highly likely that further funding will be required to meet the medium to long-term working capital costs of the Company. In the event that the Capital Raising is not completed successfully there is significant uncertainty as to whether the Company can continue as a going concern which is likely to have a material adverse effect on the Company's activities.</p>
<b>Proposed Divestment of Santa Ines Project</b>	<p>As announced on 16 May 2023, the Company executed a binding sale and purchase agreement with Fuyang Mingjin New Energy Development Co., Ltd (<b>Mingjin</b>) for the sale of the Argentinian Santa Ines Project for an all-cash consideration of \$1.5 million. Mingjin successfully completed due diligence and all documentation contemplated by the required under the implementation agreement to complete the transaction has been fully executed. The remaining threshold requirement for completion of the sale and purchase and Mingjin making the</p>

	<p>related payment is the Chinese overseas direct investment approval (<b>ODI</b>) The ODI was submitted for approval in February of 2024, with up to a 90-day review process. There is a risk that completion of the divestment will not occur, and a related risk that the Company will not have access to this funding. This risk is not considered likely and primarily a timing risk.</p>
<p><b>Proposed Acquisition of Argentinian Lithium Subsidiaries of Ultra Lithium Inc.</b></p>	<p>As announced a proposed transaction on 16 May 2023 (<b>Proposed Transaction</b>), the Company entered into a binding term sheet to acquire 100% of the Argentinian lithium-brine Laguna Verde and Chepes Gold mineral projects of Ultra Lithium Inc. (TSXV: ULT) (<b>Ultra</b>), held by Ultra's wholly owned subsidiaries Ultra Argentina SRL and Ultra Minerals S.A. As part of the Proposed Transaction, the Company also provided funds under a convertible loan agreement to Ultra to provide working capital to facilitate the Proposed Transaction.</p> <p>In accordance with the binding term sheet, the Company attempted to negotiate an acquisition agreement with Ultra. As is standard for any acquisition of this nature, and after completing technical due diligence, the Company conducted commercial, financial and legal due diligence of Ultra and their lithium-brine subsidiaries in Argentina.</p> <p>As part of this due diligence, Power identified key matters of concern, and attempted to productively engage with Ultra. By its 19 July 2023 ASX announcement, the Company expressed serious concern as to whether the Proposed Transaction could be completed. Given these concerns and the Ultra convertible loan agreement indebtedness, the Company is currently considering enforcement options to facilitate Ultra repaying the loan and interest.</p> <p>A part payment of the convertible loan agreement of \$150,000 was received from Ultra by the Company on 25 October 2023, leaving an outstanding principal amount of \$980,000, together with interest accrued and due until final settlement of the loan.</p> <p>Advice has been obtained regarding enforcement processes which may be relied upon to ensure repayment of the convertible loan agreement, including the steps required to be taken before the Supreme Court of South Australia to commence proceedings in the event of non-payment on demand. Further, the Company holds enforceable security interests over certain Ultra Canadian mineral properties and rights under the loan to require the grant of security over certain Ultra Argentinian mineral properties. The Company is yet to materially advance any enforcement actions.</p>
<p><b>Potential for dilution</b></p>	<p>No immediate dilution will occur as a result of the issue of New Options under this Prospectus. However subsequent exercise of any or all of the New Options will result in dilution. Assuming the Placement Shares and Director Participation Shares are issued and all New Options offered under the Options Offers are issued and exercised into Shares, Shareholders who do not participate in the Options Offers, are likely to be diluted by an aggregate of approximately 28.28% (as compared to their holdings and number of Shares on issue as at the Record Date).</p> <p>It is not possible to predict what the value of the Company, a Share or an Option will be following the completion of the Offers and the Directors do not make any representation as to such matters.</p>

Risk Category	Risk
	<p>The last trading price of Shares on ASX prior to the Prospectus being lodged of \$0.155 is not a reliable indicator as to the potential trading price of Shares after implementation of the Offers.</p>
<p><b>Acquisition and divestment of projects</b></p>	<p>The Company has, to date, and will continue to actively pursue and assess other new business opportunities. This may involve the divestment of non-core assets, the acquisition of other projects or assets or other new business opportunities such as joint ventures, farm-ins, or direct equity participation.</p> <p>The acquisition of projects or other assets (whether completed or not) may require the payment of monies (as a deposit and/or exclusivity fee) after only limited due diligence and prior to the completion of comprehensive due diligence. There can be no guarantee that any proposed acquisition will be completed or successful. If the proposed acquisition is not completed, monies already advanced may not be recoverable, which may have a material adverse effect on the Company.</p> <p>If a non-core asset is divested or an acquisition is completed, the Directors will need to reassess, at that time, the funding allocated to current projects and new projects or assets, which may result in the Company reallocating funds from other projects and/or the raising of additional capital (if available). Furthermore, notwithstanding that an acquisition may proceed upon the completion of due diligence, the usual risks associated with the new project/business activities will remain.</p> <p>Furthermore, if a new investment or acquisition by the Company is completed, ASX may require the Company to seek Shareholder approval and to meet the admission requirements under Chapters 1 and 2 of the ASX Listing Rules as if the Company were a new listing. There would be costs associated in re-complying with the admission requirements. The Company may be required to incur these costs in any event, were it to proceed to seek to acquire a new project which is considered to result in a significant change to the nature or scale of its existing operations.</p> <p>If a new investment or acquisition is not completed, then the Company may not be in a position to comply with the ongoing ASX Listing Rules, which includes but is not limited to, maintaining a sufficient level of operations and financial position. Given the nature of resource exploration, this may also occur if the Company abandons and/or relinquishes a project which is no longer considered viable. Any divestment of non-core assets or new project or business acquisition may change the risk profile of the Company, particularly if any new project acquired is located in another jurisdiction, involving a new commodity and/or changes to the Company's capital/funding requirements. Should the Company propose or complete a divestment of non-core assets or the acquisition of a new project or business activity, investors should re-assess their investment in the Company in light of the Company's changed circumstances.</p>
<p><b>Joint venture risk</b></p>	<p>The Company is currently and may in the future become a party to joint venture agreements governing the exploration and development of its projects. There is a risk that one of the Company's joint venture partners may default in their joint venture obligations or not act in the best interests of the joint</p>

<b>Risk Category</b>	<b>Risk</b>
	<p>venture. This may have an adverse effect on the interests and prospects of the Company.</p> <p>There can be no certainty that the parties will be able to settle the formal documentation in respect thereof. Failure to settle the terms of the formal documentation may result in termination of the joint venture and/or a potential dispute resolution process.</p>
<b>Sovereign risk</b>	<p>The Company's key projects are located in Argentina and Australia. Adverse changes in Argentinian government policies or legislation may affect ownership of mineral interests, taxation, royalties, land access, labour relations, and mining and exploration activities of the Company. It is possible that the current system of exploration and mine permitting in Argentina may change, resulting in impairment of rights and possibly expropriation of the Company's properties without adequate compensation. Any of these factors may, in the future, adversely affect the financial performance of the Company and the market price of its Shares.</p>
<b>Overseas assets</b>	<p>Some of the Company's projects are located outside of Australia in Argentina. As a result, it may be difficult to enforce judgments obtained in Australian courts against the projects. In addition, there is uncertainty as to whether the courts of Argentina or any other jurisdiction in which the Company may operate in the future would recognise or enforce judgments of Australian courts based on provisions of the laws of Australia.</p>
<b>Resource and reserves and exploration targets</b>	<p>The Company has reported a mineral source at its Salta Lithium Project (as announced on 2 November 2023). Reserve and resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates which were valid when initially calculated may alter significantly when new information or techniques become available. In addition, by their very nature resource and reserve estimates are imprecise and depend to some extent on interpretations which may prove to be inaccurate.</p>

### 5.3 Industry specific

<b>Risk Category</b>	<b>Risk</b>
<b>Exploration and operating risks</b>	<p>The mineral exploration licences comprising the Company's projects are at various stages of exploration, and potential investors should understand that mineral exploration and development are high-risk undertakings. There can be no assurance that future exploration of these mineral exploration licences, or any mining concessions that may be acquired in the future, will result in the discovery of an economic resource. Even if an apparently viable resource is identified, there is no guarantee that the required permits, consents and access agreements will be granted or that it can be economically exploited. The future exploration activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns or adverse weather conditions, unanticipated operational and technical difficulties, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, industrial and environmental accidents, industrial disputes, unexpected shortages and increases in the costs of</p>

Risk Category	Risk
	<p>consumables, spare parts, plant, equipment and staff, changing government regulations and many other factors beyond the control of the Company. The success of the Company will also depend upon the Company being able to maintain title to the mineral exploration licences comprising the projects and obtaining all required mining concessions and other approvals for their contemplated activities at the projects. In the event that exploration programmes prove to be unsuccessful, this could lead to a diminution in the value of the projects, a reduction in the cash reserves of the Company and possible relinquishment of one or more of the projects.</p>
<p><b>Mine development</b></p>	<p>Possible future development of a mining operation at any of the Company's projects is dependent on a number of factors including, but not limited to, the acquisition and/or delineation of economically recoverable mineralisation, favourable geological conditions, receiving the necessary approvals from all relevant authorities and parties, seasonal weather patterns, unanticipated technical and operational difficulties encountered in extraction and production activities, mechanical failure of operating plant and equipment, shortages or increases in the price of consumables, spare parts and plant and equipment, cost overruns, access to the required level of funding and contracting risk from third parties providing essential services.</p> <p>If the Company commences production, its operations may be disrupted by a variety of risks and hazards which are beyond its control, including environmental hazards, industrial accidents, technical failures, labour disputes, unusual or unexpected rock formations, flooding and extended interruptions due to inclement or hazardous weather conditions and fires, explosions or accidents. No assurance can be given that the Company will achieve commercial viability through the development or mining of its projects.</p> <p>The risks associated with the development of a mine will be considered in full should the projects reach that stage and will be managed with ongoing consideration of stakeholder interests.</p>
<p><b>Environmental risk</b></p>	<p>The operations and proposed activities of the Company are subject to Australian State and Federal laws and regulations and Argentinian laws and regulations concerning the environment. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.</p> <p>Mining operations have inherent risks and liabilities associated with safety and damage to the environment and the disposal of waste products occurring as a result of mineral exploration and production. The occurrence of any such safety or environmental incident could delay production or increase production costs.</p> <p>Events, such as unpredictable rainfall or bushfires may impact on the Company's ongoing compliance with environmental legislation, regulations and licences. Significant liabilities could be imposed on the Company for damages, clean up costs or penalties in the event of certain discharges into the environment, environmental damage caused by previous operations or non-compliance with environmental laws or regulations.</p>

Risk Category	Risk
	<p>The disposal of mining and process waste and mine water discharge are under constant legislative scrutiny and regulation. There is a risk that environmental laws and regulations become more onerous making the Company's operations more expensive.</p>
<p><b>First nations and other community stakeholders</b></p>	<p>Several of the Company's projects are in land areas owned by First Nations people, or where they have significant rights over use of the land.</p> <p>The APY Lands are owned by the First Nations Anangu Pitjantjatjara Yankunytjatjara (APY) people under the APY Land Rights Act 1981 (SA). The Company must gain consent by way of a Deed of Exploration and individual heritage clearance consents with the APY People. The Company has executed APY land access agreements for Mt Harcus and Mt Caroline tenements, and is currently progressing negotiations for a Deed of Exploration access agreement over the Pink Slipper location Exploration Licence Application. If the Company is unable to execute a land access agreement or obtain consent to access land, the Company's ability to conduct exploration and development will be adversely impacted.</p> <p>In the Puna region of Argentina, the local communities are consulted as part of the environmental and social impact permitting process. The Company maintains strong relationships with the Tolar Grande, Pocitos and Olacapato communities, and to date has no adverse observations recorded against its tenements, and the Salta Government has recently granted extensions to current exploration permits. Any adverse observations made by these communities could adversely affect the granting of future permit extensions to the Company.</p> <p>The Company also consults with stakeholders on the Eyre Peninsula to ensure that input is received and any potential concerns are addressed. The Company's operating procedures and stakeholder engagement processes are used to manage land access, cultural heritage, native title and community stakeholder risks.</p>
<p><b>Regulatory risk</b></p>	<p>Changes in government policy (such as in relation to taxation, environmental protection, competition and pricing regulation and the methodologies permitted to be used for water use and brine disposal) or statutory changes may affect the Company's business operations and its financial position. A change in government regime may significantly result in changes to fiscal, monetary, property rights and other issues which may result in a material adverse impact on the Company's business and its operations.</p> <p>Companies in the mining industry may also be required to pay direct and indirect taxes, royalties, and other imposts in addition to normal company taxes. The Company currently has operations or interests in Australia and Argentina. Accordingly, its profitability may be affected by changes in government taxation and royalty policies or in the interpretation or application of such policies in each of these jurisdictions.</p> <p>The Company monitors changes in legislation, regulations, rules and procedures across the jurisdictions in which it operates.</p>
<p><b>Compliance risk</b></p>	<p>The Company's operating activities are subject to laws and regulations governing exploration of property, health and worker safety, employment standards, waste disposal, protection of the</p>

Risk Category	Risk
	<p>environment, land and water use, prospecting, taxes, labour standards, occupational health standards, toxic wastes, the protection of endangered and protected species and other matters.</p> <p>While the Company understands that it is currently in substantial compliance with all material current laws and regulations affecting its activities, future changes in applicable laws, regulations, agreements or changes in their enforcement or regulatory interpretation could result in changes in legal requirements or in the terms of existing permits and agreements applicable to the Company or its properties, which could have a material adverse impact on the Company's current operations or planned development projects. Where required, obtaining necessary permits and licences can be a complex, time consuming process and the Company cannot be sure whether any necessary permits will be obtainable on acceptable terms, in a timely manner or at all.</p> <p>The costs and delays associated with obtaining necessary permits and complying with these permits and applicable laws and regulations could stop or materially delay or restrict the Company from proceeding with any future exploration or development of its properties. Any failure to comply with applicable laws and regulations or permits, even if inadvertent, could result in interruption or closure of exploration, development or other activities and could result in material fines, penalties or other liabilities.</p>
<b>Commodity prices</b>	<p>The price of lithium and other mineral commodities fluctuates due to variations in supply and demand, and global economic conditions. A decline in the price of lithium may have a material adverse effect on the economic potential of the Company's lithium resources.</p> <p>The Company incorporates price ranges in economic analyses to assess price exposures.</p>
<b>Foreign exchange</b>	<p>Contracts for exploration and construction expenditure and sales of commodities in Argentina are generally denominated in US dollars. This has adverse consequences on expenditure in Argentina if the Australian dollar falls against the US dollar, and adverse consequences on any future product sales if the Australian dollar rises against the US dollar.</p> <p>The Company may use derivative financial instruments to economically hedge material risk exposures.</p>
<b>Tenement renewal risk</b>	<p>Mining and exploration tenements are subject to periodic renewal. The renewal of the term of granted tenements is subject to compliance with the applicable mining legislation and regulations and the discretion of the relevant mining authority. Renewal conditions may include increased expenditure and work commitments or compulsory relinquishment of areas of the tenements. The imposition of new conditions or the inability to meet those conditions may adversely affect the operations, financial position and/or performance of the Company.</p> <p>The Company considers the likelihood of tenure forfeiture to be low given the laws and regulations governing exploration in Western Australia and Argentina and the ongoing expenditure budgeted for by the Company. However, the consequence of forfeiture or involuntary surrender of a granted tenement for</p>

Risk Category	Risk
	reasons beyond the control of the Company could be significant.
<b>Access risk</b>	The Company's access to the tenements may be affected by landholder and pastoralist approvals, native title rights and/or the terms of native title agreements. While the Company intends to do those things necessary to minimise these risks, it cannot guarantee that the access it has to tenements in which it has an interest will remain unfettered in the future.

## 5.4 General risks

Risk Category	Risk
<b>Economic</b>	General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.
<b>Market conditions</b>	<p>Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:</p> <ul style="list-style-type: none"> <li>(a) general economic outlook;</li> <li>(b) introduction of tax reform or other new legislation;</li> <li>(c) interest rates and inflation rates;</li> <li>(d) changes in investor sentiment toward particular market sectors;</li> <li>(e) the demand for, and supply of, capital; and</li> <li>(f) terrorism or other hostilities.</li> </ul> <p>The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.</p>
<b>Litigation risks</b>	The Company is exposed to possible litigation risks including intellectual property claims, contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position.
<b>Dividends</b>	Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.
<b>Taxation</b>	The acquisition and disposal of Securities will have tax consequences, which will differ depending on the individual financial affairs of each investor. All prospective investors in the Company are urged to obtain independent financial advice

	<p>about the consequences of acquiring Securities from a taxation viewpoint and generally.</p> <p>To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Securities under this Prospectus.</p>
<b>Reliance on key personnel</b>	<p>The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.</p>
<b>Climate Risk</b>	<p>The impacts of climate change may affect the Company's operations and the markets in which the Company may sell its products through regulatory changes aimed at reducing the impact from or mitigations to climate change. This could include measures to limit carbon emissions such as a carbon tax, technological advances and other economic or market responses, such as consumer behaviour or competition for raw materials.</p> <p>Climate change may also result in more extreme weather events and physical impacts on the Company. Weather changes have the possibility of increased water stress, making management of water resources more critical for communities.</p> <p>The Company actively monitors current and potential areas of climate change and energy transition risk and takes actions to prevent and/or mitigate impacts on its objectives and activities.</p>
<b>Coronavirus</b>	<p>The outbreak of the coronavirus disease (SARS-CoV-2 (severe acute respiratory syndrome coronavirus 2), coronavirus disease 2019 or COVID 19, including any future resurgence or evolutions or mutations thereof or any related or associated epidemic, pandemic or disease outbreak) (<b>COVID-19</b>) may continue to impact global economic markets. While COVID-19 is not currently materially affecting the Company's operations, with the potential for further outbreaks and new strains of the virus, the ongoing nature and extent of the effect of the outbreak on the performance of the Company remains unknown.</p>
<b>Global conflicts</b>	<p>The current evolving conflict between Ukraine and Russia and Israel and Palestine (<b>Ukraine and Gaza Conflicts</b>) is impacting global economic markets. The nature and extent of the effect of the Ukraine and Gaza Conflicts on the performance of the Company remains unknown. The Company's Share price may be adversely affected in the short to medium term by the economic uncertainty caused by the Ukraine and Gaza Conflicts.</p> <p>The Directors are continuing to closely monitor the potential secondary and tertiary macroeconomic impacts of the unfolding events, including the changing pricing of commodity and energy markets and the potential of cyber activity impacting governments and businesses. Further, any governmental or industry measures taken in response to the Ukraine and Gaza Conflicts, including limitations on travel and changes to import/export restrictions and arrangements involving the relevant countries may adversely impact the Company's operations and are likely to be beyond the control of the Company.</p>

Risk Category	Risk
	The Company is monitoring the situation closely and considers the impact of the Ukraine and Gaza Conflicts on the Company's business and financial performance to, at this stage, be limited. However, the situation is continually evolving, and the consequences are therefore inevitably uncertain.

The determination of non-executive Directors' remuneration within that maximum will be made by the Board having regard to the inputs and value to the Company of the respective contributions by each non-executive Director. The current amount has been set at an amount not to exceed \$300,000 per annum.

Any Director who devotes special attention to the business of the Company, or who otherwise performs services which in the opinion of the Board are outside the scope of the ordinary duties of a Director, or who at the request of the Board engages in any journey on the business of the Company, may be paid extra remuneration as determined by the Board. In addition, Directors are also entitled to be paid retirement benefits and reasonable travelling, hotel and other expenses incurred by them respectively in or about the performance of their duties as Directors.
